Class Participation

Class participation is very important. Here's the cool thing though; you do not have to be a computer or Computer Science expert. Participating as much as possible and often is the single most proven way to improve your knowledge. I will do my best to engage you throughout lesson and support you on your learning journey. There will be times that I assign you do difficult tasks, but you will find success everyday if you are trying your best!

Technology plays a large role in our world today. It's readily available and required in a variety of situations. Therefore, we will be using technology to complete every day tasks as well as to complete assignments, communicate with others, publish our ideas, and research the ideas of others. It's ok if you don't feel like an expert. Everyone can learn! You'll be great before you know it, and I'll support you along the way!

Online Learning

Responsibilities

You have some major responsibilities while you're in this classroom. You are responsible for you. That's it. That's a big job though. This means you're responsible for your words, actions, reactions, behavior, and learning. You are always free to choose, but you are not free from the consequences of your choices.

BELLWORK:

WE WILL START EVERYDAY! THIS WILL BE COUNTED AS YOUR ATTENDANCE FOR THE CLASS PERIOD. I EXPECT YOU TO BE IN YOUR SEAT/LOCATION WITH YOUR COMPUTER OUT, CHARGED, & LOADING/LOGGED IN WHEN THE TARDY BELL RINGS.
